1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

- Naming : If every person use this rule then it would make the reading and understanding of the code better
 - Declaration : You don't need to use displayName for naming because displayName is used for error messages and you just want to name a component
 - Alignment : It makes the reading and understanding process better
-

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

- Quotes : Every group of programmers / company decide if they use single or double quotes
 - Mixins : Code that mixes but what code and how did it work?
 - Props : Avoid using an array index as `key` prop, prefer a unique ID,Why ?
